2019 Education Week - Working and Learning Together

Dear folks of the NESD,

Education week is upon us again and this year's theme is "Working and Learning Together".

Seems simple enough at face value, but sometimes it's a road paved with good intentions, with the odd pothole. Human nature, as funny and fickle as it is, allows us individual thought processes.

We all have different ways of thinking, reacting, processing and ultimately doing. We may take completely polar opposite approaches to challenges and sometimes it works, sometimes it doesn't. In the end though, we are all trying to achieve the same result. A solution to original task we were given.

Even though we take on tasks with different mind frames, one thing has stayed constant throughout the ages. When people work together and help others up as opposed to bringing them down, good things always happen.

At the end of the day, every one of you have the same goal in mind, to make our kids good citizens, prepared to make the world a better place for us all. If we keep this goal in mind and continue to learn from past mistakes and work together, everything is achievable.

I've said it before and it bears repeating...."right people, right place, right time" You are all here now, because you are where you are supposed to be. Let's continue to work together and make this the best year yet!

Thank you for the work you all do.

Respectfully and sincerely
On behalf of your NESD board

Luke Perkins Board chair
