Principal: Trevor Norum

Vice-Principal: Erin Ernst

Alternate Recess Program

Purpose

The purpose of Alternate Recess is not as a punishment or further consequences. It is an opportunity for our students to meet success in a smaller group of students, under closer supervision, in a more structured environment. Our goal is that structured play opportunities and body breaks will allow for higher levels of learning in the class for students that are often in trouble on the playground.

Structure

- Students will attend SCOR for both morning and afternoon recess.
- Fifteen minutes of “recess time” will be provided through supervision from administration
- Students will be in the library over lunch for SCOR with a priority of these students to use the library computers.
- Recess time will happen just after regular recess. Students will take outdoor wear to SCOR during regular recess.
- Practice activities will be completed in SCOR during regular recess time. Students need to bring work to SCOR and be working on this activity. Reading, writing activities, and math practice will be given if students do not have classroom work to complete.
- Students will meet with Administration and the classroom teacher to determine if students will be transitioned to regular recess times.
